Silverlit®

EXOST™

The success bases on several key factors include:

• Smart Assortment --- A well structured lineup not only deliver competitive price products, but also products with innovative and surprising features with strong marketing plans to meet consumer needs

• Wide Target Age and Gender --- Thanks to the powerful design and modern packaging, which not only building a dream to a 5 years old child, and even up to 14 years old or higher. With the Amazone line, we successfully extend RC vehicles no longer only for boys but also girls!

EXOST strives to be the leading brand in RC vehicles.
Keeping innovative and evolution will be the
“engine” of this brand, in return to deliver
over the standard RC experience to
the consumer!

EXOST PRO are high-end toy grade R/C cars. By including advanced hobby-grade technology (i.e. digital proportional steering, high speed, differential gear etc.), we are upgrading our gameplay experience to the next level.

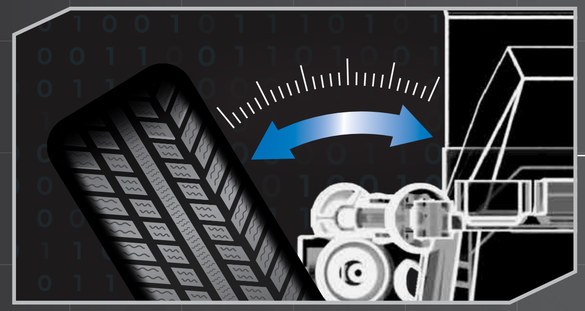

EXOST™ Pro

FOR THE ADVANCED

EXOST PRO GLOSSARY

Digital Proportional Steering

The amount you turn the steering wheel is reflected by the car with a proportional amount of wheel turning. In other words, when you steer less, the car turn less with great accuracy.

Dynamic Steering

The amount you turn the steering wheel is reflected by 3 stages of wheel turning. Simply put, it is a less advanced version of Digital Proportional Steering.

Differential Gear

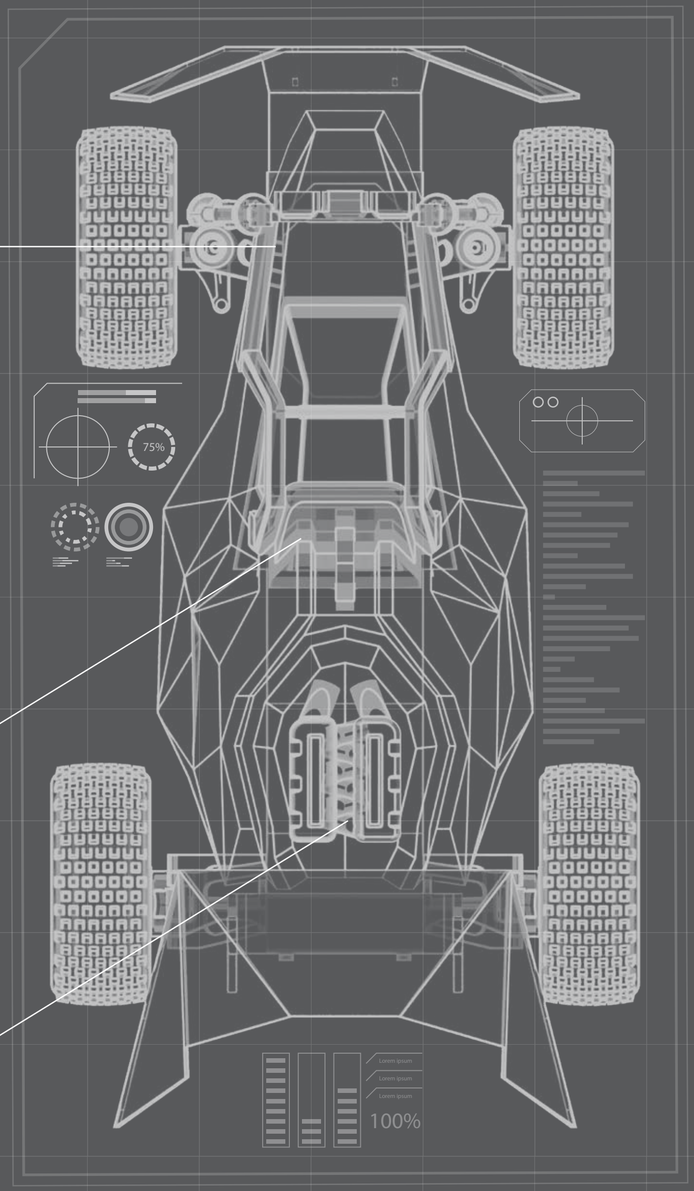

Rotation speed of left and right wheels are different when turning corners. In other words, turn sharper corners with less effort.

7.4V and 3.7V rechargeable batteries

7.4V batteries has greater energy storage and higher voltage output than 3.7V batteries. Higher voltage can run power-hungry devices like high-speed motors.

EXOST PRO ROCKET ONE

33 cm | 1 : 14 | 2.4 Ghz | Max. 25 Km/h | 7.4V RECHARGEABLE BATTERY | 2 x AAA | 8+ | USB-C CABLE INCLUDED | DIFFERENTIAL GEAR
